
Arm Turn - Black

Arm Turn - Black

P/N: 21500

Wall or truss mount arm for multi-directional orientation, featuring a 360° rotation system.

The Arm Turn mount allows the projector to be ceiling, wall, or truss-mounted, orienting it in any direction. For truss mounting, the clamps can be freely positioned at various points, provided they have an M10 hole or thread.

The arm features a multi-directional quick-release system that allows for a full 360-degree rotation. Additionally, it can be attached either to the center of the plate or in a lateral position, keeping the projector perfectly aligned with its center of gravity.

Finally, the sliding mechanism is linear and can cover the entire length of the structure till the wall.

Specifiche

Installation	A traliccio (clamp non incluse), Support system to the ceiling, Support system to the wall
Mode	Floor, Landscape, Portrait
Material	Iron-Aluminum
Treatments	Powder coated
Color	Black
buttonhole adjustment range	From 200 to 400 mm
clamp fixing screw	M10
standard attachment	YES
Dimension	200 x 500 _ 680 [mm]
packaging	220 x 520 _ 700 [mm]
