

ARAKNO Plate portrait floor landscape Multi-projector

ARAKNO Plate portrait floor landscape Multi-projector

SKU: 21717

ARAKNO plate to quickly position the projector projection both horizontally but also vertically or on the floor.

The plate allows greater stability of both adjustment and projection even in the most extreme conditions.

The Plate has already foreseen the positions of the most important projectors.

Just hook the arakno support into the Turned in the vertical and horizontal position to have the different angle.

Also available in: **White (21718)**
