

Opera led wall 4 towers

Opera led wall 4 towers

SKU: 23024

Opera is the universal wheeled stand for large-sized LED structures.

Its modular structure makes it possible to support large LED-walls and move them easily, even on not perfectly smooth surfaces.

Its structure enables LED-wall installation right over the wheeled frame, thus highlighting linearity and impressiveness of the supported LED-walls.

With the 4-tower structure it is possible to install up to 290" LED-walls.

Specifiche

Material	Aluminum
Treatments	Powder coating
Color	Black, customized, Silver
diagonal of the wall	247"
Height	3,4 m
