

NEKST Lite

NEKST Lite

SKU: 28158

Fly rental stacking cage.

**Compatibility:*

PT-VMZ 26 ST

Epson EBL360

Features:

- The cage allows the use of clamps directly in its structure, facilitating installation and speed of application.
- The cage also has an adjustable foot system that allows for easy projection even when supported.
- The stacking system also allows the projectors to be positioned one on top of the other.
- The cage can be positioned in landscape, portrait, or floor mode using the stacking systems and feet.
- The cage's shape also allows for easy maneuverability and maintenance of the projector itself.
