

ARAKNO MAXI Y - Arakno Double Clamps

ARAKNO MAXI Y - Arakno Double Clamps

P/N: 29700

Arakno Maxi Y is the mount that enables cage attachment to truss structures using 2 half-coupler clamps, providing 3-axis micrometric adjustment and 360 rotation to complement the cages.

All three adjustments are highly precise and feature integrated locking devices to secure the position once the desired alignment is achieved.

Thanks to its full 360 rotation and wide tilt/pitch angles, using this mount in combination with the cage allows for flexible pre-alignment—even in challenging installation scenarios or complex projection angles.

Once the system is secured to the truss, the projector can be finely calibrated and tuned to the screen or wall surface.

The system for mounting the Arakno Maxi Y to the cage is engineered for extreme simplicity: in addition to the standard Euromet interface, it features a captive screw system that requires no tools, allowing for fast and secure hand-tightened installation.

Specifiche

Installation	Truss-mounted cage
Typology	Ceiling Mounts
Material	Steel, Brass, Aluminium
Treatments	Powder coated
Color	Black, Silver
Pitch	+/- 30°
Roll	+/- 30°
packaging	200 x 500 _ h380 [mm]
Angolo di Rotazione	360°
clamp fixing to truss	Ø 48 – 51 mm
SWL (SAFE WORKLOAD)	250 Kg (each Clamp)
clamp fixing screw	M10
Dimension	180 x 480 _ 370 [mm]
