

Protective Cage - Protek M - Black

Protective Cage - Protek M - Black

P/N: 29400

Protek is a protective enclosure for professional video projectors, engineered so that the projector chassis is mounted completely rigid and integral to the structure.

Protek not only delivers comprehensive device protection, but also serves as an essential accessory for managing complex deployments. It enables total projection flexibility in any orientation: landscape (standard horizontal), floor (downward/upward projection), and portrait (vertical).

The system is natively compatible with the entire ecosystem of Euromet accessories, featuring dedicated integration with the Arakno and Arakno Maxi Y mount series.

*Also available in this colour: [White](#)
