
ARAKNO K Bridge - Double Clamps

ARAKNO K Bridge - Double Clamps

P/N: 29720

Adjustable Sliding and Rigging Bar

Bar housing for 2 clamps: the clamps slide freely along the longitudinal profile and can be securely locked into the desired position.

Native integration with the Arakno ecosystem: the bar features the proprietary Euromet connection interface for seamless integration with all mounts, accessories, and calibrated brackets within the Arakno line. This mounting block is also engineered to slide freely along the longitudinal axis and lock into the exact required position.

360° rotation system: enables free orientation and continuous angular positioning along the azimuth axis.

Specifiche

Typology	Truss Mounts
Max Load	45 kg
Max dimension	400x80x40 mm
Swivel	360°
Weight	3,2 kg
Fixing screws	M6 M3 M4 M5
