
Arakno Omnia - Truss Landscape

Arakno Omnia - Truss Landscape

P/N: 29860

Patented-mechanism tilt/pitch system, Brass screws to compensate for mounting hole tolerances

Enhanced centering and dual-axis displacement: up to ± 30 cm fore/aft (depth) and ± 30 cm left/right (lateral) translation.

3-axis micrometric adjustment (pitch, roll, and yaw)

Projector-specific dedicated interface plate: featuring tilt adaptation for landscape projection to ensure maximum structural stability.

Universal projector mount interface: pre-engineered for compatibility with Arakno line extensions and wall-mount arms.

Micrometric adjustment knobs: for ultra-precise, millimeter-level positioning.

Hex key / Allen wrench access: for precise adjustment even under heavy loads.

Integrated truss coupling / truss clamp attachment
