
Arakno Tilter - Portrait/Floor Adapter

Arakno Tilter - Portrait/Floor Adapter

P/N: 23750

The Arakno plate adapter for portrait or floor projection is an accessory that can be added to standard Arakno plates to convert them from classic to portrait or floor projection setups. The adapter is quick and easy to install, allowing you to choose whether to mount it on the inside or outside. This adds flexibility and versatility to the installation itself. Thanks to this accessory, you can achieve more efficient management of projection spaces while maintaining all the original features of the Arakno system.
