

Nekst Maxi stacking and rental cages

Nekst Maxi stacking and rental cages

P/N: 29111

Innovative cage for professional projectors

**Compatibility:*

CHRISTIE HS LINE

EPSON PROJECTOR: EBPQ220 and SIMILAR, EBPU1008 AND SIMILAR

Features:

- The cage allows clamps to be fitted directly into its structure, facilitating installation and speeding up application
- The calibration system consists of the dedicated KITE system, which allows for micrometric and calibrated adjustment along all three axes and calibrated rotation
- The system allows for micrometric and calibrated adjustment along all three axes and calibrated rotation
- The KITE can also be removed using innovative captive screws
- The system can also be used without the cage to allow for quicker installation or when using special lenses such as ultra-short focal length lenses
- The Kite can also be moved within the cage, allowing adjustment of the zoom or centre of gravity
- The cage also features an adjustable foot system that allows for easy projection even when placed on a surface
- The 'stacking' mounting system also allows projectors to be positioned one on top of the other
- The cage can be positioned in landscape, portrait or floor orientation using the stacking systems and feet
- The cage's design also allows for easy manoeuvring and maintenance of the projector itself
- The cage can also be stacked with just one other Kite, thus enabling a quicker and more cost-effective installation

Specifiche

Material	Iron - Aluminum
pipe section	30x20 mm
Color	Black
Treatments	Powder coated

attachment thread	M8
electrical insulation projector	YES
Dimension	720 x 740_h434 [mm]
packaging	740 x 760 x_h446 (mm)
