

IRIS - Iris Pro Max Stand

IRIS - Iris Pro Max Stand

P/N: 29940

Accessory for the IRIS PRO MAX system and the EPSON CS01 trolley.

The support allows the entire structure to be raised by over 20 cm, providing a better view of the whole structure.

Installation is quick and easy and ensures maximum safety of the trolley, even whilst in motion.

The trolley base allows for the use of ALR screens of various sizes, from 100 to 150 inches.

The trolley ensures the entire structure moves smoothly, even on uneven surfaces.

All wheels are lockable.

It always allows the screen to be lowered below a height of 180 cm for easy movement between different rooms.

With this system, the projector remains at a height of 90 cm and the lowest projection level starts at 130 cm, allowing for a perfect view even from behind lecterns and meeting room tables.

The system ensures the projector is perfectly calibrated for the various screen sizes, which are already pre-set.

The accessory retains compatibility with all other accessories, such as mounts for video conferencing systems and soundbars.

Specifiche

Typology	Ground Mounts
Material	Iron
ALR screen size	130"
Treatments	Powder coated
Color	Black
Weight	30 kg
Ship weight box 1	35 kg
