

KIOSK Classic Single - 55-inch - LG

KIOSK Classic Single - 55-inch - LG

P/N: 24849

Multimedia and modular kiosk designed to support **one 55-inch LG monitors**.

The kiosk's "classic" design enhances the stability of the structure while providing neat and functional cable management.

Made with high-quality materials, the kiosk is designed to accommodate the installation of additional accessories and hardware systems.

The monitors are securely mounted using the solid and reliable **Euromet mounting system**, ensuring maximum precision and stability.

The system is equipped with an efficient ventilation solution designed to ensure proper heat dissipation and the safe, reliable operation of the monitors.

Available colours:

black, white, silver, anthracite, red

Base: wide base for a self-standing structure; narrow base for a structure to be floor-mounted

Monitor VESA: available from 200 × 200 up to 1000 × 600

ACCESSORIES

- Key locking system: rear or side access door for enhanced security
- Wheeled trolley: designed to facilitate kiosk transportation, including on uneven surfaces
- Additional mounting part: provision for installing a soundbar or camera
