IRIS PRO CART 8 large Black

P/N: 29450-1

Cart designed for EPSON EB-L815 projectors and ALR projection screens

The cart allows you to pair ALR screens of various sizes, ranging from 100 to 150 inches. The cart enables smooth movement of the entire structure, even on uneven surfaces.
The cart can be divided into 3 parts, and the side components can be opened to accommodate additional storage space.
All wheels feature locking brakes. It also allows the screen to be lowered below a height of 180 cm for easy transport between different rooms.
Perfect cable management keeps all wiring hidden, with dedicated space to house all the necessary technology.
The projector remains at a height of 80 cm, while the bottom edge of the projection starts at 120 cm, ensuring an unobstructed view even behind desks and boardroom tables.

The system maintains precise projector calibration aligned with the various pre-set screen sizes.
A wide range of accessories is also available, including mounts for videoconferencing systems and soundbars.

Specifiche

Typology	Ground Mounts
Material	iron - wood
ALR screen size	130”
Treatments	Powder coated
Color	Black
Weight	40 kg
Ship weight box 1	45 kg
