Max Monitor Size	1 x 120" – 2 x 55"
VESA	up to 800-400

Categories: [Flat Panel Ground Mounts](#), [Flat Panel Mounts](#), [Led Wall](#)

This wheeled stand is very elegant and stable and can support heavy monitors - up to 200 kg weight.

Its lower base includes the VOLTA system – created by Euromet – and, thanks to its original design and arch-shaped structure, it makes up for a very stable and robust base, thus relevantly lowering its gravity centre.

These features, together with its **4 stable and ergonomic wheels**, make VOLTA PREMIUM a very versatile product, easy to move, with **easy fixing thanks to its practical wheel brakes** and thus becoming a fixed support system in a few seconds, ensuring utmost stability and reliability.

It can support very wide screens thanks to its **optional bracket with VESA** - up to 1200*800 – up to a maximum of 200 kg weight.

It can be easily integrated with many different accessories and functions, such as: sound bars, camera support brackets, as well as single or double RACK systems.

Pre-set positions for height adjustment

Standard available paint colours are: white, black and silver.
