---

**Categories:** [Advanced Kalibration Systems](#), [Matrix](#), [Nekst](#)

### K Bridge truss floor projection accessory with 2 clamps.

- The portrait bar is a bar designed specifically for the NEKST line
- This bar makes it possible the portrait projector.
- This projection is very stable thanks to the balance on the center of gravity
- This bar requires the use of 2 clamps that can slide across the entire length of the bar
- The bar will provide a convenient fixing system on the NEKST cage itself
- The bar has the EXhagon as an accessory, thus also allowing installation via M tilt
