### Fly rental stacking cage.

*\*Compatibility:*

*PT-VMZ 26 ST*

*Epson EBL360*

### Features:

- The cage allows the use of clamps directly in its structure, facilitating installation and speed of application.
- The cage also has an adjustable foot system that allows for easy projection even when supported.
- The stacking system also allows the projectors to be positioned one on top of the other.
- The cage can be positioned in landscape, portrait, or floor mode using the stacking systems and feet.

- The cage's shape also allows for easy maneuverability and maintenance of the projector itself.
