The floor stand screen support PLATEA was revisited and is now available a DOUBLE system. Platea is one of the most successful professional support systems by EUROMET distributed all over the world by the biggest multinationals and used for the most important monitor and touch-screen applications and this is the new improved version - now available. Thanks to its double support system and the innovative connecting bracket, it can support two large-sized monitors together with two top-design RACKS, perfect for large-sized technology components.
