Euromet's award shows innovation and resourcefulness, finally combining 90°-rotating interactive boards with videoconferencing, thanks to its innovative camera bracket. **Turn Volta enhances a patented Euromet system enabling perfect screen rotation without moving or covering cameras. Its ease of use makes it ideal also for disabled people, thanks to remote height adjustment.**

Turn Volta enhances a patented Euromet system enabling perfect screen rotation without moving or covering cameras. Its ease of use makes it ideal also for disabled people, thanks to remote height adjustment.

This system makes it possible to use boards in prestigious environments, such as meeting rooms and conference venues.

The new "VOLTA" arched cart has a made-in-Italy design: beautiful, stable and innovative, but also elegant with chromed cover and column protecting cables when the screen is turned in different positions.
