### Universal Professional LED-wall support floor stands with wall security support installation.

The Checkers LED-wall system is an innovative universal system created by EUROMET. Modular and flexible support system for LED-walls, can adapt to all main LED brands worldwide.

This system ensures stable support for LED-walls, also in case of uneven walls.

This system makes it possible to shorten installation time for wall-mounted LED-walls and, at the same time, it ensures integration with other equipment, such as speakers or video-conference mount systems.
