ARAKNO 40TH ANNIVERSARY EDITION

Arakno is engineered for compact strength and is designed with superior grip adjustment knobs to deliver the easiest fine-tuning for precise image alignment, with the capacity to hold up to a 45Kg (100 lbs.) multimedia projector.
While stout and sturdy in structure, this mount boasts premium adjustability and enhanced functionality.
An integrated quick-connect mechanism provides a hassle-free method for micrometrical adjustment of the gears, along with a quick-release mechanism to easily service the projector. The ultimate solution for convenient and secure projector installation.

TRUSS ADAPTER

09216
The truss adapter of the ARAKNO line allows you to hook ARAKNO directly to a truss of any size in a stable and lasting way. The component is easy to use because it allows for the attachment of ceiling plates and, being universal, the attachment of clamps as well. This makes ARAKNO perfect for rental installations and for events due to the fact that it can be used on any type of truss. The system confirms the effectiveness of the ARAKNO system, with easy Allen key fixing.

CLAMP SOLUTION

13353
Truss/tube Clamp for attaching Euromet projector arms (05329 and 05398) and the entire arakno series (utilising the truss adapter 09216), to truss structures with a Ø 48-51 mm diameter tubes.

Example of an easy transformation from truss to ceiling installation of the 23800 Arakno 40th Anniversary Edition

Remove arakno from the truss clamp by loosening the two screws in the adapter with the hexagonal wrench. Insert arakno into the ceiling plate and lock it into place with the two screws utilizing the hexagonal wrench.

ACCESSORIES

ARAKNO PLATE

21717 - 21938 - 21937
ARAKNO plate permits quick projector positioning both horizontally as well as vertically, as well as towards the floor. The plate allows greater stability for both adjustment and projection, even in the most extreme conditions. The Plate is outfitted for the positioning and attachment of the most important projector lines. Easily fasten the plate to the arakno coupling joint to achieve the desired projection angle.
Adaptable to different projector models, both white and black options are available.

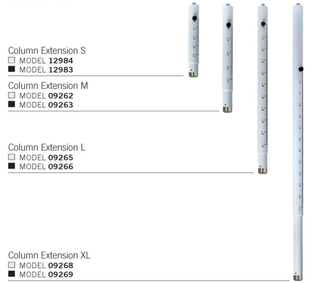

Easy to transform in Portrait - Floor - Landscape and to be installed with all the following acessories:

ARAKNO WALL

15463 - 15462
An adjustable wall-support for videoprojectors, ideal for mounting high-end and heavy projectors. It is both easily and quickly installable. The Arakno regulation system allows for precise, fast and dependable focusing of projected images. White and Black Options are available.
